**Volk®1 Single Use Binocular Indirect Ophthalmoscope (BIO) Lenses**

- STERILE. STERILIZED WITH ETHYLENE OXIDE GAS.
- FOR SINGLE USE ONLY.
- DO NOT USE IF THE PACKAGE IS OPEN OR DAMAGED.
- FEDERAL LAW (USA) RESTRICTS THIS DEVICE TO SALE BY OR ON THE ORDER OF A PHYSICIAN.

**ENGLISH: INSTRUCTIONS FOR USE**

**INDICATIONS FOR USE**

The Volk®1 Single Use Binocular Indirect Ophthalmoscope (BIO) Lenses are indicated for visualization and laser therapy of the human retina (fundus) using a binocular indirect ophthalmoscope.

**SPECIFICATIONS**

| Product               | Product Code | Magnification | Field of View | Laser Spot Magnification Factor | Working Distance | Anti-Reflective Laser Coating |
|-----------------------|--------------|---------------|---------------|---------------------------------|------------------|-------------------------------|
| Volk®1 Single Use 20D | V20LCD       | 3.13          | 45° / 58°     | 0.32                            | 47 mm            | Yes                           |
| Volk®1 Single Use 28D | V28LCD       | 2.27          | 54° / 70°     | 0.44                            | 30 mm            | Yes                           |

**WARNINGS**

1. Do not immerse the device in a decontaminating product before use.
2. Inspect the optical surface(s) to make sure it is free from any damage (e.g. chips, scratches, etc.). Do not use or repair if the device is damaged.

**PRECAUTIONS**

1. Do not attempt to use the Volk®1 Single Use Binocular Indirect Ophthalmoscope (BIO) Lens prior to completely reading and understanding these instructions for use.
2. To be used by a licensed physician in a method consistent with other indirect image ophthalmic non-contact diagnostic and laser surgery lenses.
3. The sterile packaging and lens should be inspected prior to use.
4. The Volk®1 Single Use Binocular Indirect Ophthalmoscope (BIO) Lens is intended for single patient use only.
5. Do not resterilize and reuse.
6. This device is packaged and sterilized for single use only. Do not reuse, reprocess, or resterilize. Reuse, reprocessing, or resterilization may create a risk of contamination and/or cause patient infection or cross-infection, including, but not limited to, the transmission of infectious disease(s) from one patient to another. Contamination of the device may lead to injury, illness, or death of the patient.

**“USE BY” DATE**

Use the device prior to the “Use By” date on the package label.

**SUGGESTED DIRECTIONS FOR USE**

1. Remove the lens from its package and place it in a sterile work area.
2. Handle the device only by the grip ring to avoid contacting the optical surfaces of the lens.
3. Volk’s BBAR Anti-Reflective Laser Coating is optimized for diagnostic imaging, as well as visible and near-infrared wavelength laser procedures (e.g., argon and diode).
4. When calculating the spot size at the treatment site, the laser spot setting should be multiplied by the appropriate Laser Magnification Factor. Refer to the Specifications table to find the appropriate Laser Magnification Factor for the lens that is being used.

**STERILE EO**

Sterilized using ethylene oxide

Do not re-use

Consult the Instructions for Use for important cautionary information

Do not use if package is damaged or open
